Local governmental bodies

- Local municipal officials
- Local agricultural officials
- Local forestry officials
- Local environmental officials
- Universities & Research Institutions

Local non-profit organizations

- Agricultural organizations
- Environmental organizations
- Trade and industrial organizations
- Craftsman's association

Volunteers

- To help trainings

Printing & Publishing the Brochures

<p>What is the brochure and for whom?</p> <p>Brochures are an excellent way to disseminate information to a wide range of stakeholders. They are designed to be easy to read and understand, and they are often used to promote a specific product or service. The brochure is a key tool for communication and marketing, and it is essential for any business or organization that wants to reach its target audience.</p> <p>How to design and distribute brochures?</p> <p>Designing and distributing brochures is a multi-step process. It starts with identifying the target audience and the key messages to be conveyed. The design should be visually appealing and easy to read, with clear headlines and concise text. Distribution can be done through various channels, including direct mail, email, and social media.</p> <p>CONSTRUCTION SUSTAINABLE HARVEST AND USES OF WILD PLANTS</p> <p>Wild plants are a valuable resource, and their sustainable use is essential for the future. This brochure provides information on the identification, harvesting, and use of wild plants in construction. It covers topics such as the selection of plants, the timing of harvest, and the various uses of wild plants in construction, including as a source of natural pigments, oils, and resins.</p> <p>WWW.SAGE-2012</p>	<p>GELECEK NEELELER İÇİN "ZAHTERMAZE SAHİP ÇIKALIM!"</p> <p>İhtiyaçlarımız için!</p> <p>Gelecekteki nesiller için sağlıklı ve sürdürülebilir bir gelecek yaratmak için, doğal kaynaklarımızı korumak ve sürdürülebilir şekilde kullanmak önemlidir. Zahtermaze, doğal kaynaklarımızın önemli bir parçasıdır ve gelecekteki nesiller için değerli bir mirastır. Bu broşür, zahtermazenin tanımlanmasını, toplanmasını ve kullanımını göstermektedir.</p> <p>WWW.SAGE-2012</p>	<p>Biyoekonomik kullanım nedir?</p> <p>Biyoekonomik kullanım, doğal kaynakların sürdürülebilir şekilde kullanılması ve bu kaynakların ekonomik faydalarının artırılmasıdır. Bu kullanım, doğal kaynakların korunmasını ve sürdürülebilirliğini sağlar, aynı zamanda insanların yaşam kalitesini de artırır.</p> <p>Bizim için de çevre dostu!</p> <p>Biyoekonomik kullanım, çevre dostu bir yaklaşımdır. Doğal kaynakların sürdürülebilir şekilde kullanılması, çevreye zarar vermez ve aynı zamanda insanların yaşam kalitesini de artırır. Bu nedenle, biyoekonomik kullanımı teşvik etmek önemlidir.</p> <p>WWW.SAGE-2012</p>
<p>Why is "Wild Plant"?</p> <p>Wild plants are those that grow naturally in the wild, without human intervention. They are often found in rural areas and are a valuable source of food, medicine, and other products. Wild plants are also important for the environment, as they provide habitat for many species of animals and insects.</p> <p>Why is "Plant Diversity" important?</p> <p>Plant diversity is important because it provides a wide range of benefits to the environment and to humans. It helps to maintain the balance of ecosystems, and it provides a source of food, medicine, and other products. Plant diversity is also important for the economy, as many industries rely on plants for raw materials.</p> <p>How to conserve biodiversity?</p> <p>Conserving biodiversity is essential for the future of our planet. It requires a combination of measures, including the protection of natural habitats, the sustainable use of natural resources, and the promotion of biodiversity-friendly practices. It is important to work together to ensure that we are doing our part to protect the planet for future generations.</p>	<p>Wildlife population in Turkey</p> <p>Wildlife population in Turkey is declining due to various factors, including habitat loss, overhunting, and climate change. This is a serious concern, as many species are becoming endangered. It is important to take action to protect wildlife and its habitats, and to ensure that wildlife populations are sustainable for the future.</p> <p>WWW.SAGE-2012</p>	<p>Bizim için de çevre dostu!</p> <p>Biyoekonomik kullanım, çevre dostu bir yaklaşımdır. Doğal kaynakların sürdürülebilir şekilde kullanılması, çevreye zarar vermez ve aynı zamanda insanların yaşam kalitesini de artırır. Bu nedenle, biyoekonomik kullanımı teşvik etmek önemlidir.</p> <p>WWW.SAGE-2012</p>

What should be training materials?

Visual materials

- Training materials for wild harvesting methods
- Documentaries about the importance of wildlife
- Documentaries about the importance of ethnobotany and traditional medicine

Publications

- Training brochures for wild harvesting methods
- Training booklets on sustainable plant wild harvesting
- Posters indicating the importance of wildlife
- Posters indicating the importance of ethnobotany and traditional medicine

Modern harvesting equipments for plant wild harvesting

Governmental precautions and stakeholder's interest are the cornerstones of sustainable use of natural resources and Sustainable Plant Wild Harvesting

THANK YOU
